INSURANCE ASSIGNMENT AND SELF PAY AGREEMENT

I certify that I have insurance coverage with the primary insurance company and the second insurance payer, if applicable, listed above. I assign directly to Progressive Behavioral Health, PLLC all insurance payments, if any otherwise payable to me for services rendered. I understand I am financially responsible for any deductible, co-insurance, copayment, non-covered charges, and any balances not covered under a signature for all insurance submissions. I understand that it is my responsibility to pay for any services rendered at the time of visit.

FINANCIAL RESPONSIBILITY ACKNOWLEDGMENT

Payment for services rendered is the responsibility of the patient, parent, or guardian. This responsibility obligates you to ensure payment in full of your fees. As a courtesy, we will verify your coverage on your behalf. *However, you are ultimately responsible for the payment of your bill, regardless of insurance coverage.* Once insurance claims have processed, any remaining balance(s) will be billed to the patient. If the insurance company fails to process claims within 45 days from the date of service, the balance due may be collected from the patient. If insurance issues arise, it is the responsibility of the patient to contact the insurance company, group plan, administrator, or employer representative for resolution. A patient's insurance policy is a contract between the patient and the insurance carrier. Progressive Behavioral Health, PLLC and its associates are not parties to that contract and cannot act as a mediator with the carrier or employer. The patient will become responsible for complete payment to the provider if coverage has terminated due to lack of premium payment.

As required by insurance mandates, it is the responsibility of the patient to obtain any necessary authorization for medical treatments. If a referral is required for treatment, it is the responsibility of the patient to obtain the referral and present it at the time of treatment. If the patient is treated without the proper referral or authorization as required by the insurance carrier, the patient assumes responsibility for payment of all fees at the time of service.

Informed Consent for Telehealth-Based Healthcare Services

Patient Name _____ DOB _____

Practitioner Name _____ Date Consent Discussed _____

Introduction

Progressive Behavioral Health practitioners often use of Telehealth and related technologies to facilitate the delivery of healthcare services. Telehealth involves the use of electronic communications to enable health care providers and patients at different locations to share individual patient medical information for the purpose of improving patient care. Providers may include psychiatrists, psychologist, nurse practitioners, therapists, primary care practitioners, specialists, and/or subspecialists. The information may be used for diagnosis, therapy, follow-up and/or education, and may, but not necessarily, include any of the following: medical images, instant messaging, chat, telephone and/or email conversations, patient medical records, live two-way audio and video, and output data from medical devices and sound and video files.

Expected Benefits

- Improved access to medical care by enabling a patient to remain at a remote site while the practitioner obtains test results and consults from healthcare practitioners at distant/other sites.
- More efficient medical evaluation, treatment and management.
- Obtaining expertise of a distant specialist.

Possible Risks

As with any medical procedure, there are potential risks associated with the use of Telehealth. These risks include, but may not be limited to:

- In rare cases, information transmitted may not be sufficient (e.g. poor resolution of images) to allow for appropriate medical decision making by the practitioner.
- Delays in medical evaluation and treatment could occur due to deficiencies or failures of the equipment. In the event that there is an equipment or technological failure during a Telehealth encounter, you should call the following phone number for instructions from your practitioner on how to receive follow-up or ongoing care 1-844-824-8775.

In very rare instances, security protocols could fail, causing a breach of privacy of personal medical information.

- In rare cases, a lack of access to complete medical records may result in adverse drug interactions or allergic reactions or other judgment errors.
- In the event of any adverse events or unexpected reaction to treatment that may occur during or after your Telehealth encounter, you should follow-up with your primary care physician or emergency room, if applicable, or you may call your practitioner at the following phone number 1-844-824-8775 for any non-urgent issues. Telephone calls will be returned within 72 hours.

By signing this form, I understand the following:

1. I have the right to withhold or withdraw my consent to the use of Telehealth in the course of my care at any time, without affecting my right to future care or treatment.

2. A variety of alternative methods of medical care may be available to me, and that I may choose one or more of these at any time. My practitioner has explained the alternatives to my satisfaction.
3. My practitioner must clearly disclose his/her identity, including information such as the practitioner's name, address, contact information, and medical licensing credentials.
4. Progressive Behavioral Health will not allow any other people to observe or participate in the Telehealth encounter without my knowledge or advance consent.
5. Progressive Behavioral Health will not make recordings of any video or telephone encounters about me without my advance consent.
6. I may request a copy of my medical information and/or that my medical information be sent to my primary care provider or other health care provider, if applicable.
7. My practitioner must provide appropriate follow-up care or recommend follow-up care as necessary.
8. I have the right to know what personal data may be gathered about me and by whom.
9. I have been informed about when online communication should not take the place of a face-to-face interaction with a practitioner.
10. I have the right to be provided meaningful opportunities to give feedback about any concerns I may have about my care and that Progressive Behavioral Health must review and respond to those concerns in a timely and appropriate manner.
11. Progressive Behavioral Health must obtain my express consent before forwarding any of my identifiable information to a third party other than in accordance with HIPAA and other applicable laws.
12. I must verify my identity and location prior to initiating a Telehealth encounter.
13. Telehealth may involve electronic communication of my personal medical information to other medical practitioners who may be located in other areas, including out of state.
14. I agree to hold harmless my Practitioner for delays in evaluation or for information lost due to such technical failures.
15. It is my duty to inform my practitioner of electronic interactions regarding my care that I may have with other healthcare providers.
16. I may expect the anticipated benefits from the use of Telehealth in my care, but that no results can be guaranteed or assured.
17. Electronic systems used will incorporate network and software security protocols to protect the confidentiality of patient identification and imaging data and will include measures to safeguard the data and to ensure its integrity against intentional or unintentional corruption.

Patient Consent to The Use of Telehealth

I have read and understand the information provided above regarding Telehealth, have discussed it with my practitioner or such assistants as may be designated, and all of my questions have been answered to my satisfaction. I hereby give my informed consent for the use of Telehealth in my medical care.

I hereby authorize Progressive Behavioral Health practitioners to use Telehealth in the course of my diagnosis and treatment.
